GERMANS GAIN FOOTHOLD ON VITAL PART OF DON RIVER; AMERICAN BOMBERS GIVE REDS MUCH HELP

Benes Sees Peace Bid October 15

Offer Will Come, He Says, Unless Germans Get Decisive Victory by That Time

Front Is Asked Anglo Arms Workers Petition for Second Front in Europe

London, July 25 (AP)—President Benes of Czechoslovakia's exiled government, urging a second front in Europe in 1942, declared today that the Germans will offer peace to Britain, the United States and Russia by October 15 if they do not score a decisive military success by that time.

"Foolish unacceptable terms" already are being prepared, he said in a talk to Czech soldiers.

Benes spoke as 10 London munition workers, who said they represented 4,000 colleagues, took a petition to No. 10 Downing street the residence of the prime minister, asking for a western front in Europe.

Benes predicted that Hitler's peace offer would not be accepted and if the Russians hold out—"and I think they will"—Germany would be exhausted by spring.

"How long the war will last depends on whether there is a second front in Europe this year," he continued. "I myself desire there should be one and am making every effort to bring about the solution of the question. There is a certain risk connected with it but the risk next year will be even greater."

"If a second front can be established within the next three months to divert a certain proportion of the German forces from the eastern front, it is probable that things will develop quickly and we might be home within a year."

The Communist party of Britain is spreading tons of leaflets, chalking walls and holding numerous rallies demanding "a second front now."

"The campaign will continue until we get it," said Harry Pollitt, secretary to the British section of the Communist International as he prepared for a demonstration tomorrow in Trafalgar Square.

"The slogan of a second front was born at the moment Hitler invaded Russia," Pollitt said. "The only place Hitler can be defeated is on the continent by joint action of America, Britain and Russia. It is time that it comes."

The chorus advocating an immediate allied offensive against German-occupied Europe was swelled also by Jack Tanner, president of the Amalgamated Engineering Union, estimated to have a membership of 600,000 factory workers.

Speaking at Blackpool, Tanner told the International Metal Workers Federation that it was difficult to be patient.

"Our future hangs upon the outcome of this year's action or inaction in the East," he said.

Court Action Is Expected in Jersey Tax Board Fight

Governor Edison, Hague Are Embroiled in New Dispute as Group Is Denied Office

Jersey City, N. J., July 25 (AP)—The new explosion between Governor Edison and Mayor Hague—this one over who shall serve on the tax board for Hudson county, Hague's center of power—appeared destined for court settlement today.

A week-end truce restored quiet to the court house where yesterday county police barred the tax office doors to the five board members appointed by the governor, but county officers still stood guard.

Gov. Charles Edison, who ousted the old board after public hearings on charges of dereliction of duty, indicated he would not use his state police authority to open the office to his appointees.

"I am not an advocate of force," said "This is a procedure in which I shall have, as always, respect for the law and the orderly processes."

County Counsel Emil Walscheid, at whose office the board members were yesterday, said "The existing board will be in there functioning Monday and henceforth unless and until some court says they can't continue."

Mayor Frank Hague, powerful state Democratic leader who broke with Edison a year ago after backing him for election and whose power is centered in Hudson county, which includes Jersey City, characterized the ouster as "the culmination of a carefully planned hatchet many months ago between the railroad lobby and the governor."

The Democratic governor and Hague came to the parting of the ways over a tax question last year when the Republican-controlled legislature, with Edison's support, passed a compromise law to govern payment of millions of dollars in back railroad taxes and providing new formulas for future payments.

Hague charged the governor was acting with "the railroad lobby" in a blow directed at Jersey City, a large railroad terminal and a heavy beneficiary of carrier taxes. The constitutionality of the compromise laws is now before the Court of Chancery.

Sailing Becomes Better Albany, N. Y., July 25 (AP)—Sailing soon will be pleasanter for cadets in the State Maritime Academy, what with a new training ship with facilities for 400, new pay of \$65 monthly and a 75-cent daily maintenance allowance.

All from the federal government. The good news came from the State Board of Regents yesterday. Cadets at the Bronx county school, enrolled in the Merchant Marine Naval Reserve, will be eligible to qualify for third officers' licenses upon graduation.

Griffin Is Placed Under Technical Arrest Charged With Conspiracy

New York, July 25 (AP)—Charged in a warrant with conspiring to undermine the morale of America's armed forces, William Griffin, editor-publisher of the New York Enquirer, has been placed under technical arrest at St. Clare's Hospital.

The warrant was served yesterday when federal authorities, who had searched for him since Thursday, learned Griffin had been admitted to St. Clare's where he recently had been a patient, for treatment for a heart ailment.

The search began when U. S. Commissioner Garret W. Coter issued bench warrants for Griffin, Col. Eugene Nelson Sanctuary, army reserve officer, and James Smythe, executive of the Protestant War Veterans' Association. Twenty-five others have been indicted in other cities.

Dr. William Wagner, who visited Griffin at the hospital yesterday, said the publisher was suffering from coronary thrombosis. At the offices of the Enquirer, a spokesman said Griffin had suffered from a heart ailment for several months and had been taken to the hospital Thursday night.

Several Loaded Vessels Withdraw Under Naval Escort; 45,000 Pounds of Bombs Dropped

General MacArthur's Headquarters, Australia, July 25 (AP)—Steady Allied dive-bombing has broken off the landing of Japanese supplies in the newly occupied Buna-Gona Area of New Guinea and several fully loaded enemy vessels have withdrawn northward under naval escort, a communique announced today.

Gen. Douglas MacArthur's headquarters said 45,000 pounds of explosives and incendiaries were dropped yesterday on troops, invasion barges, stores and installations in that region low on the northeast coast of the Papuan peninsula.

Large fires were started and an anti-aircraft battery was silenced, the communique reported.

"A number of the enemy's cargo vessels have been unable to unload, being forced to withdraw to the north under cover of naval forces," it said.

Eighteen Japanese bombers and a 16-plane fighter escort were reported, meanwhile, to have struck ineffectively at the airfield of Port Moresby, advanced Allied base on New Guinea's south coast 110 miles below Buna.

"There were no casualties and only slight damage," it was said. The dive-bomber which is playing a big part in Allied operations over New Guinea is the twin-engine Douglas A-24, first used by the U. S. Navy and then by the Army, officers said.

Buna, surrounded by grassy plains suitable for air fields, controls the only passable trail to Port Moresby. Natural obstacles halt vehicles only 26 miles from Buna at the government station of Kokoda.

From there, the route is hazardous even for foot travel. A wire suspension bridge permits passage across the Kumusi river, 14 miles farther southwest. Just beyond the river is an almost perpendicular hill, 800 feet high. Then comes a series of high mountains, jungles.

U. S. Army fliers first detected the sea movements of the Japanese down the Papuan peninsula from their older bases at Salamaua and Lae last Monday and three Japanese transports were listed among the invasion craft destroyed.

Nevertheless, the Japanese are believed to have put several thousand men ashore and the Brisbane Courier Mail expressed disappointment in an editorial headed "Attack Must Be Our Aim."

"Disappointment," it said, "must be felt on two scores: First that Allied forces were not in a position to take the initiative; second that the approaching convoy was not intercepted earlier and attacked head-on."

Navy Will Launch New Aircraft Carrier

Newport News, Va., July 25 (AP)—Implementing the growing emphasis on air power, the navy will launch the U. S. Essex—first aircraft carrier built since the United States entered the war—at the Newport News Shipbuilding and Dry Dock Company plant next Friday.

Mrs. Artemus L. Gates of Locust Valley, Long Island, N. Y., wife of the assistant secretary of the navy for air, will christen the Essex, the fourth ship in United States naval history to bear the name. Maids of honor will be two of Mrs. Gates' nieces, Alessandra and Anne Cheney of Saunders town, R. I.

The Essex will take to the James river with ceremony cut to a minimum by wartime restrictions. Few persons other than the sponsor's party, high ranking naval officers of the Fifth Naval District and shipyard officials, will be present.

An \$8,500,000 naval expansion program approved by Congress a month ago placed heavy emphasis on construction of aircraft carriers.

The measure provided for 1,900,000 more tons of fighting ships including sufficient carriers to make the United States Navy superior in this category to all other navies combined, naval officials said.

Praises U. S. in Desert Cairo, Egypt, July 25 (AP)—Brig. Gen. Russell L. Maxwell, head of the United States military mission in Egypt, and his men "are making the desert sit up and talk," said R. G. Casey, British minister of state and former Australian minister to Washington, after a visit to a United States project today. The establishment is a "splendid example of American military housekeeping on a grand scale—a large widespread establishment which will give added punch to United Nations efforts in this part of the world," said Casey. "I was much impressed by what I saw."

U.S. Planes Bomb Axis Base Ports

More Than 80 Axis Planes Are Damaged While on Ground; R.A.F. Also Is Active

Torpedoes Used R. A. F. Torpedo Planes Attack Enemy Ship in Ionian Sea

Cairo, July 25 (AP)—United States Army bombers in seven daylight raids in a week have wrought heavy damage to the Axis ports of Tobruk and Benghazi in Libya and Suda Bay in Crete, U. S. Army Air Force headquarters declared today as the R. A. F. added more than 20 additional Axis planes to its fast-increasing tally of enemy craft destroyed or damaged on the ground.

The R. A. F. announced its latest blow at the forward landing field at El Daba, cost the Axis more than a score of planes and three destroyed in the air yesterday.

Since Sunday the field at El Daba has been heavily hit three times and that at Fuka once. Figures on Axis planes destroyed on the ground have tallied more than 80, in addition to some communications which merely have listed "many."

The U. S. Army Air Force headquarters announcement on the American bomber operations for the week ending today said besides heavy damage to the enemy docks and installations, several medium-sized merchant vessels were left in flames and a direct hit set fire to a large ship at Benghazi.

The ground fighting consisted mainly of artillery duels in the central and northern sectors with some patrol activity. In the southern sector there was nothing to report, the communique said.

In addition to the three Axis aircraft shot down in air fights over El Daba, two others crashed in taking off to challenge the R. A. F. bombers, the communique said.

R. A. F. fighters ranged over the battle area in which British troops were consolidating newly won ground and "successfully attacked" enemy vehicles, the communique reported.

Allied planes have been raiding El Daba day and night for several days in an effort to cut down the air support for Rommel's forces. Torpedo-carrying aircraft of the R. A. F. went across the Mediterranean into the Ionian sea to attack an enemy merchant ship yesterday. The ship was ablaze at the end of the attack and was down at the bows, the communique said.

A British military commentator in London disclosed that imperial troops had withdrawn from "one or two positions exposed to heavy enemy artillery fire."

(Informal military opinion in London was that, although the British retain the initiative in Africa, the arrival of a single Axis convoy could swing the balance to the other side at any time.)

(It was reliably reported in Ankara yesterday that five trains had passed through Yugoslavia into Greece carrying 120 eighteen-ton tanks for shipment to the Axis African armies.)

Negotiations Continue Amsterdam, N. Y., July 25 (AP)—Striking employees of the Mohawk Carpet Mills will continue negotiations with the management, but plan to begin picketing the plant Monday, says a C.I.O. official. Jack Rubenstein, state director of the Textile Workers of America, estimated after a mass meeting last night that 90 per cent of the 3,800 employees working on navy and army duck canvas orders are out. He blamed "the company's insistence on operating the two broadloom system (one man to two looms). The management earlier asserted it 'does not know the reason for the strike,' which began Thursday, and added the mills are open to workers wishing to return.

U. S. Officer Is Killed New Delhi, India, July 24 (Delayed) (AP)—Capt. Howard M. Lammers, United States naval liaison officer at Colombo, Ceylon, was killed today in the crash of an R. A. F. plane. The United States commission here was informed the plane struck a hill upon flying out of a cloud formation. Captain Lammers was about 48 years old. He had served in Colombo 18 months,

American Internees Report Harsh Japanese Treatment

First Diplomatic Exchange Between U. S. and Japan Is Completed; 1,100 Board Swedish Liner

Lourenco Marques, Portuguese East Africa, July 23 (Delayed) (AP)—The first diplomatic transfer of nationals between the United States and Japan since the start of the Pacific war was completed here today when more than 1,100 North and South Americans boarded the Swedish liner Gripsholm to take the places vacated by Japanese diplomats and their families brought from America.

The Americans arrived here on the liners Conte Verde and Asama Maru. They walked down the gangplanks of the two ships as the Japanese left the Gripsholm and the two groups moved along the quay in parallel lines to their new steamers.

The Tokyo radio said the Americans were scheduled to sail today (Saturday) from the East African port.

The line of railway cars had been drawn up on the quay, separating the Japanese and Americans as they marched to their new ships. Soon after moving to the Gripsholm, the Americans were permitted to disembark and tour the city.

The exchange was supervised by the Portuguese foreign office. The North and South Americans brought with them from Japan and Japanese-occupied territories stories of their existence in the Orient under Japanese supervision. Some of these accounts told of hunger, cold and threats.

(Four Associated Press correspondents arrived with the group. Following are portions of a composite story on conditions in Japan and Japanese-occupied territory written by the correspondents. Some parts of the story are omitted to conform with official requests from Washington that nothing be done which could interfere in the slightest with the welfare of repatriation of Americans still in Japanese-occupied territory. Flynn Endorses Mead, Withdraws O.R. Ewing's Name

National Democratic Head Lines Up With F.D.R. and Cites Record of Senator Mead

The Democratic state committee's unanimous decision to hold the August 19 state convention in New York's biggest borough, Brooklyn, came yesterday, as National Democratic Chairman Edward J. Flynn endorsed Senator Mead.

Flynn thus lined up beside President Roosevelt against State Chairman James A. Farley, Attorney General John J. Bennett's backer.

Mead said Wednesday after a White House conference that Mr. Roosevelt had said he would vote for Mead were he a delegate to the convention.

Flynn, in his statement, withdrew his "favorite son" candidate—Oscar R. Ewing.

"Mead's unimpeachable record as a supporter of the President's foreign and domestic policies," declared Flynn, "is too well recognized to require comment."

Said Flynn: "The President's preference for Senator Mead's nomination will not and should not be taken lightly in these times. I am sure this preference is founded not only upon his confidence in Senator Mead's ability to lead the administration's party to victory but also upon his assurance that Senator Mead will be a governor who thoroughly understands and actively supports the President's policies now as he always has in the past."

Mead backers made no apparent attempt to dispute the selection (Continued on Page Five)

Russians Say Enemy Is Attacked

Soviet Refuse to Say Rostov Is Taken Even Though Nazis Fight in Streets

Attack Broadens Germans Are Forking Out in Several Vital Directions

By CLYDE A. FARNSWORTH (Associated Press War Editor)

After four weeks of their major offensive action for 1942, the Germans have gained a foothold on the southern, or deep Caucasus, side of the lower Don river—a strategic line on which Russian forces have taken a stand to shield their southern contact with the Allied world.

United States bombers had become a powerful bulwark of the Red air force in the battle of the Caucasus.

An American source at Moscow said that Douglas Boston, twin-engine medium bombers from America, were participating in the Red air force's hammering of German armored columns on the Don steppes.

Russian dispatches conceded the Don crossing today but declared that the Germans now dug in on the south bank of the Don opposite in the Tsimlyansk area, where the focus of strong attacks to dislodge them before the position could be exploited for a deeper thrust into the vital Caucasus.

The wandering Don was tinged with blood as it flowed past Tsimlyansk westward to Rostov where also the enemy's shock troops were said by the Russians to have wedged themselves into the Russian defenses.

The Germans said yesterday that Rostov was theirs, although not yet mopped up, and announced today that Novocheerkassk, 20 miles northeast, also had fallen to them, outflanked by the thrust to Rostov across the Axai river, a tributary of the Don.

The Germans said that the battle for Don crossings was in full swing on a broad front at Rostov and east of that city.

Three days ago the high command said that the Don had been reached on a broad front east of the Donets river confluence—that is, in the Tsimlyansk area—but today's Moscow reports were the first confirmation that the lower Don had been crossed at all.

As for the German claim that Rostov had been stormed and taken, British military sources said today that the enemy probably was in the outskirts of that city and possibly in the streets but that the report of Rostov's capture was premature.

The Germans' ultimate or immediate purpose was to span the Don southward in as many places as possible, on the way to the Caucasus oil fields, and deny to cut through the Don bend to the east, at Stalingrad, and thus sever another line in Russia's north-south railway network and Volga river communications.

A Russian dispatch said the Germans, already having lodged themselves under heavy artillery cover, on the south bank of the lower Don, now also had reached the "middle Don sector"—evidently facing Stalingrad from the west.

The Don, in its big bend eastward, approaches to point about 45 miles from Stalingrad, industrial capital of the lower Volga region.

Counter-attacks which left Rostov's approaches dotted with at least 2,000 German dead did not prevent German forces from breaking into one sector of the Rostov position, the Russians said.

Although the admitted Don crossing, at Tsimlyansk, 120 miles upstream from Rostov, was "being dealt with," Moscow said, the situation there recalled similar developments of the Voronezh battle after the German crossing of the upper Don three weeks ago.

The Germans still are lodged on the east bank, before Voronezh, although the Russians have been flailing their flanks and have forced a counter-crossing of the river.

The Germans acknowledged Russian assaults continued there, 300 miles north of Rostov, "with strong infantry and tank forces," but said that all the thrusts had been parried with heavy losses to the Russians, including destruction of 103 tanks.

About 1,000 Square Miles of Long Island Given Surprise Blackout

New York, July 25 (AP)—Nearly 1,000 square miles of Long Island were thoroughly blacked out for an hour last night, in a test ordered by the New York State Office of Civilian Protection in Albany.

Suffolk county was taken by surprise, although officials had been warned that a blackout signal would be given sometime between July 23 and July 30.

An overcast sky contributed to the general darkness on the island, but a fire in a dumping lot at Malverne sent a bright glow over a considerable area.

Lieut. Col. Paul M. Cairns, an army observer at River Head, said the blackout was "a splendid job." "It had been a revelation to me to walk through this town in the dark," Cairns said. "I didn't see a single light and I was stopped twice because I was smoking a cigarette."

Fifty-five thousand emergency workers went to their tasks of repairing and clearing up theoretical damage caused by the "raid," immediately after the all-clear. They stayed on duty until midnight.

Church to Honor Men in Service

Plaque Contains Names of 50 Young Men

At the regular Sunday morning worship service at Clinton Avenue Methodist Church, 10:30 o'clock, a roll of honor plaque with 50 names of young men from Clinton Avenue Methodist Church who have joined the armed forces, will be dedicated.

Frederic Snyder, world traveler and lecturer, will speak on the topic of "The First Service Star." Newspaper clippings record many of the forecasts made by Frederic Snyder. He called in advance the Japanese treachery and announced the bombing of Manila on December 4. Over a long period Mr. Snyder has visited most of the theatres of war and has been a daily student of world affairs.

Mr. Snyder has held responsible military positions. In 1918 he passed the examination for United States commissioned officers at Union College, Schenectady. He was under competent orders for transport to France when the armistice was signed. He was discharged as a captain in the adjutant general's department, after having served as the military secretary of the New York State Military Training Commission.

While serving as secretary of the New York State Division of Aliens, Mr. Snyder took part in the arrest and detention of some of the German agents. Mr. Snyder originated the intelligence methods used by this department. He envisioned the involvement of the United States in the first World War and was engaged in intelligence work before the 1917 declaration of war.

His observations from the press section of the League of Nations at Geneva have aided his deductions concerning international affairs. He is the only speaker to ever win the Toledo Town Hall award twice in succession.

The Lutheran Church of the Redeemer, Wurts and Rogers streets, will have a mortgage-burning ceremony in connection with the morning worship Sunday. The liquidation will be celebrated Sunday morning by burning the mortgage. After its presentation before the altar by the church council president, Frederick DuBois, the torch will be applied and the congregation will join in the singing of the doxology.

DIED

In Memoriam

In loving memory of Mrs. John Licardo, who departed this life two years ago today, July 26, 1940. It is only a grave, but still needs care.

For the one we love is sleeping there. Some may forget her, now that she is gone.

But we will remember no matter how long. We miss her when we need a friend.

On her we always could depend. She cheered us in sickness and smoothed our pain.

God grant some day we'll meet her again.

Photographs, Maps Found on Alien in Federal Roundup

New York, July 25 (AP)—Aerial photographs and "bomber" maps showing vital spots throughout New York and New Jersey were found in the possession of one of 11 enemy aliens seized in a roundup yesterday, P. E. Foxworth, assistant director of the F. B. I., reported today.

There were 100 such photographs and maps, specifically designed as guides to enemy bombers, Foxworth declared. He added that all the photographs were developed in Germany, leaving no doubt that the Nazi government had copies.

The photographs were described as excellent aerial views, showing such important points as the George Washington bridge, the banks of the Hudson river, airplane factories, war plants, reservoirs and other logical bomber targets.

Foxworth said the alien also had between 50 and 75 similar maps of South and Central America, particularly of Peru and Chile.

Nathan Says Allies Can Win, if Russia Holds

Poughkeepsie, N. Y., July 25 (AP) The United Nations can win the war in 1944 if Russia is not defeated, Robert R. Nathan of the war production board declared today, warning, however, that sacrifices by American civilians have been "insignificant" compared with those to come.

Chairman of the W. P. B.'s planning committee, Nathan is scheduled to address the Vassar College Child Study Institute tonight.

In an interview, Nathan predicted the United States will reach its war production peak next spring, and added that this country has already outstripped the combined production of Germany and England. He asserted the next six months' production of armaments will equal that of the previous two years.

Illustrating the grave prospects for civilian sacrifices in the future, he said that since May, 1940, Congress has appropriated 225-billion dollars for war materials, but has spent only 40 billions.

Bahia State, in Brazil, has prohibited the killing or shipment from the state of any cows or female calves in the next two years.

War Relief Committee

Highland, July 25—The War Relief Committee are kept busy sorting and sewing and they can also use any quantity of material given by them. No garments are too old for use if clean. Suggested uses in salvage sewing are: An old leather pouch pocketbook will make a child's cap, lined with purple lining, or palms for women's and boy's mittens; an old pillow slip cover will make child's jacket, covering in slip cover can be used as front for slip cover can be covered in scraps of slip cover to be used as self covered buttons. Thus nothing is lost and an attractively finished garment is achieved; a pair of men's old wool slacks contains enough fabric to make a boy's jacket or an entire wool suit for a small boy; an unused blanket will make a warm bathrobe for a man, woman or several children; a coat with a wide circular skirt can be converted into a box coat plus a separate skirt; knitted fabrics can be cut and sewn so old worn sweaters can be sized and remodeled into smaller sizes or made into warm undergarments; a man's shirt, the collar and sleeves worn beyond further use, can be made into a child's wash dress, trimmed with the shirt buttons and buttonholes; velvet drapes will make a small size snow suit including hat. They will also make a misses dress or a bathrobe.

Washington, July 25 (AP)—A bill to provide \$35 to \$85 a month death or injury benefits for civilian war casualties may emerge from the Senate finance committee ahead of the new tax measure which now is keeping committee members busy five days a week.

Senator Clark (D., Mo.), chairman of a subcommittee in charge of the bill, called out a meeting scheduled for today but said "We'll get to it as soon as we can—at the first lull." The proposal, authored by Senator Pepper (D., Fla.), would offer financial protection to civilians who sustain a war injury, to the dependents of those who die as a result of such an injury, and to the dependents of civilians detained by the enemy.

Ship Toll Nears 400

(By The Associated Press) The toll taken by U-boats in the western Atlantic neared the 400 mark today with the navy announcement of the sinking of a medium-sized U. S. merchant vessel 800 miles off the coast July 16. All of 123 persons aboard were rescued in the torpedoing, which raised to 398 the unofficial Associated Press tabulation of Allied and neutral ship losses in the western Atlantic since Pearl Harbor.

The American vessel was hit in broad daylight by a submarine which remained submerged. There were 66 passengers and 57 crewmen on the ship. Yesterday the navy announced the sinking of another U. S. cargo vessel.

BOY SCOUT NEWS

Last Sunday afternoon, a group of Cub Scouts from Den 1 and 4 of Cub Pack No. 12, enjoyed an outing to Camp Half Moon at the Boy Scout Camp in Spruettown. Following a picnic lunch, the boys with their leaders visited the various camp "villages" and became acquainted with camp life in general at a scout camp. The remainder of the afternoon was spent in the camp swimming pool, all enjoying a much anticipated swim at camp. On their way home to Kingston the group took time out to hike up the mountain to the Phenicia Fire Tower and also for a swim at Woodstock.

The Cubs all agreed that the day had been most exciting, as well as interesting. They also look forward to another such outing in the near future.

Hoover Asks U. S. To Look Out for 3 Nazi Saboteurs

Washington, July 25 (AP)—J. Edgar Hoover, F.B.I. director, asked the nation today to be on the lookout for three men identified as expert German saboteurs who he said might come to the United States.

The three have been trained in the German sabotage school and have received orders from the Nazi high command to come to this country to destroy vital war industries, Hoover said in a statement.

They were associated with the eight Nazi saboteurs now on trial before a military commission sitting secretly in the justice department, the F.B.I. chief said.

The men were identified by Hoover as Walter Kappe, alias Kappel, 37, a lieutenant in the intelligence section of the German army and an instructor in the sabotage school near Berlin; Joseph Schmidt, alias Paul Schmidt, alias Jerry Swenson, and Reinhold Rudolph Barth, 35, all natives of Germany.

Aged Jewish Folk Are Brought to County

There are 175 residents of the Home of Old Israel on Jefferson street, New York city, who will tell anybody that the dimout is a fine thing. It is responsible for their getting two weeks of sunshine and fresh breezes in the Shawangunk Mountains at Ellenville.

A group of the old people, whose ages range from 65 to 90 years, left the home Friday for this holiday in the country. Before the summer is over 175 will have had the outing.

The group was taken to the Goodman Hotel in Ellenville, accompanied by Dr. Joseph Herman, one of the home's staff doctors, and a nurse.

Those behind the project of giving the old folks a vacation in the country raised \$10,000 to defray the expenses.

Olive Bridge Methodist Church Repairs Completed

Under the efficient supervision of Grover Christiansa, heading the committee on repairs, the re-roofing of the Olive Bridge Methodist Church and necessary repairs and painting of the belfry have been most satisfactorily completed. Mr. Christiansa was ably assisted by the pastor, the Rev. Merton S. Cady, and the male members and friends of the church who found it possible to contribute their time and labor during the day and evenings while the work was in progress.

The call for contributions to cover cost of the materials used was so liberally responded to that it is estimated a balance will remain sufficient to cover the cost of painting the exterior of the church and no doubt this project will be carried through at an early date.

American Internees Report Harsh Japanese Treatment

(Continued from Page One)

Mill, chief of the former Associated Press Bureau in Tokyo; Reiman Morin, who was in Indo-China; Joseph Dynan, who was in Tokyo; and Vaughn Meisling, who was in Hongkong at its capitulation.

Some of the returning American nationals reported that some prisoners were threatened with the guillotine by Japanese authorities seeking to obtain admissions of guilt from men charged with espionage.

There were no known cases in Japan of physical abuse of women or children among the prisoners, but some men were told their wives and children would be made to suffer if they did not confess to espionage charges.

(These reports are those of individuals and have not yet been brought to the official attention of the United States government.)
There was a general food shortage in Hongkong and Americans and Canadians held there suffered from beri-beri, pellagra and other ailments caused by diet deficiencies. Some lost as much as 60 pounds in weight and the average was 20 pounds.

In the northern areas of the Japanese empire, internees suffered from cold during the winter. Those held in Korea and Manchukuo endured unheated cells and houses with temperatures below zero. There were no reports of deaths among American prisoners from mistreatment, but a number of British nationals committed suicide in prison.

A score of American priests, captured in Hongkong on Christmas day, said they were marched to a ravine for execution, then reprieved at the last moment. They were held in a garage for three days, tied in groups with insufficient water and food.

The United Press received a dispatch from its correspondent Robert Bellaire telling how he and Joseph Dynan of the Associated Press were beaten and choked by the Japanese when they refused to write certain statements. His dispatch said in part:

"Officials of the home office questioned me repeatedly and at great length in an effort to get me to admit that my activity as a press association reporter had included illegal espionage. Since I had done nothing which I considered illegal I made no admissions.
"An official who was superintending the questioning then demanded that I write a statement to the effect that I had been well-treated. This I refused to do until I had been badly choked. The officer seized my necktie, pulled it constantly tighter and tighter until it was impossible to breathe. I then was forced to write a statement along lines he dictated.

Dynan told me that he had much the same experience. A home office official demanded that he write a statement on the subject, 'The Good Treatment I Received From the Japanese During Wartime.' When he refused he was beaten. He was hit in the face and

several teeth, in a bridge, were knocked out.

In the same story Bellaire said that Otto Tolischus, chief correspondent of the New York Times in Tokyo, was taken in custody and charged with espionage and violation of the National Defense Act. Bellaire's dispatch continued:

"He was forced to sit, Japanese style, with his heels against his, until wounds opened on his legs. He was slapped repeatedly during questioning by police and once was partly strangled. Police threatened him with a court martial and a firing squad.

"Max Hill, chief correspondent of the Associated Press in Tokyo, was threatened with similar treatment unless he gave information about an alleged spy ring."

(Advices received by the Associated Press stated that Hill was not actually mistreated.)

Roosevelt Congratulates Hoover for His Work
Washington, July 25 (AP)—President Roosevelt congratulated F. B. I. Director J. Edgar Hoover today on his 25 years with the Justice Department and said that his service to the nation had been "conspicuous in efficiency, in effectiveness and in results."

Starting as a clerk in the library of Congress, Hoover later joined the Justice Department and after a few years was appointed to the unit which Mr. Roosevelt said he brought to the "forefront among all the law enforcement agencies of the world."

The President's congratulations were in a letter of greeting on the occasion of the graduation of the 19th class of the F. B. I. National Police Academy, founded by Hoover in 1935.

Specialization?
In the furniture industry, stronghold of individuality, where all types of furnishings are produced in almost endless variety to suit the varied tastes of American home-makers, one manufacturer is setting a record for specialization which none of the less style-conscious industries can top.

This factory turns out just one product; a barrel chair. It comes in just one cover, a cotton floral print. The manufacturer says he doesn't want to expand—another chair would disrupt the production line.

of Brooklyn as the convention site.

Said Farley after the committee meeting:
"I am entirely satisfied with the situation and I am just as confident as I have ever been that Mr. Bennett will not only be nominated but also will be triumphantly elected." Farley claims that 650 of the 1016 delegates are pledged for Bennett, with a majority necessary for nomination.

During the 17-minute session, former Supreme Court Justice Jeremiah T. Mahoney, in an unscheduled address, urged Farley to throw his own hat into the ring. Mead, Mahoney said, would be the strongest candidate if Farley did not get into the race.

Confusion brewed upstate in the reported bolting of Bennett-pledged delegates in Saratoga county, and Chairman Arthur J. Leonard said it had been decided that the county's six delegates would attend the convention without instructions.

Chairman James Glavin of the county advisory committee was quoted as saying four of the six had renewed their Bennett pledges and a fifth was supporting Lieut. Gov. Charles S. McGowan, who has not announced his candidacy.

Mead forces now claim the 102 convention votes from the Bronx, of which Flynn is Democratic leader and New York county's (Tammany) 155 votes.

Brooklyn has 193 votes and so far Frank V. Kelly, Brooklyn leader, has indicated he would stand with Bennett.

Ingersoll Offers His Services to U. S. Army
New York, July 25 (AP)—Ralph Ingersoll, editor of PM, who accused his draft board of classifying him in 1A because board members didn't like his newspaper, has offered his services to the army.

The 41-year old World War veteran whose classification was appealed by PM's owner, Marshall Field, filled out enlistment papers yesterday, took his physical test, and returned home with instructions to report to learn when, or if, he must appear for induction.

On Thursday, Ingersoll submitted to his local draft board a form requesting immediate classification and waiving "all rights of notice, personal appearance and appeal"—as required of registrants planning to enlist rather than await call under selective service.

At the time of his classification, Ingersoll had declared, in an open letter in PM, that the board was trying to draft him because of prejudice against the paper.

After the board reiterated on July 8 its 1A decision, Ingersoll asserted in a statement that if he joined the army "I want it to be as an honor paid my profession, not because some men on a local draft board don't like PM."

The editor's case was placed before an appeal board on instructions from national headquarters, Col. Arthur V. McDermott, New York Selective Service director, said.

Field asked for Ingersoll's deferment.

ment on the basis that he was "indispensable" to PM's continuance.

Although Ingersoll did not seek deferment on dependency grounds, he listed two dependents—a former wife "awaiting a very serious operation" and an "aged paralytic."

Shut Out Favorite In Today's Event At Arlington Track

Chicago, July 25 (AP)—Shut Out, winner of the Kentucky Derby, races today for a turf prize that will be \$100,000. Shut Out, a colt, owned by Albert Swenke, was not in condition for the race, Trainer Sarge Swenke decided. The colt, which had been Shut Out's contender, will be pointed for the \$25,000 added American Derby at Washington Park next month.

The classic that has been the jinx of champions may see Shut Out join the procession down the road to defeat, but Trainer John Gaver does not believe the great son of Equipose will fail. Jockey Eddie Arcaro, a ranking stake rider, will be up.

With Alsbach out, Shut Out's chief opposition may come from Alsbach, 1941 juvenile champion, and winner of the Preakness. The surprise nominee was Bolus, entry of Mrs. Emil Denmark of Chicago.

The handsome Shut Out, owned by Mrs. Payne Whitney of New York, probably will go to the post as an odds-on favorite because of his proven ability to run the mile and quarter route. He has triumphed in the Belmont Stakes, the Blue Grass Stakes, and finally in the Yankee Handicap to take the lead for the three-year-old champion-

ship of the year. He needs only to win today to clinch that title.

AMATEUR SEMI-FINALISTS IN TAM-O-SHANTER GOLF

Here are the four amateurs who fought their way into the next-to-last round of the match competition in the Tam-o-Shanter tournament at Chicago: (Left to right) John Holmstrom of Rockford, Ill.; Wilford Wehrle of Racine, Wis.; Mike Stolarik of Great Lakes Naval Training Station, and Corp. Marvin (Bud) Ward of Spokane, Wash., U. S. national amateur champion.

Mel Ott's Plan of Babe Young in Outfield Pays Big Dividends for Giants

Ex-First Baseman Poles Second Homer in Two Days; Both Won Games for Ott

(By The Associated Press)

There are more ways than one to win a baseball game, but the formula employed with increasing success by the New York Giants is to harness all the power available, even if it means sending infielders to the outfield and regulars to the scrap heap.

The latest of masterful Melvin Ott's experiments took big Babe Young off the bench, which he had warmed all season because John Mize was doing a brisk business at the Babe's old first base stand, and spotted him in center field.

Young came through yesterday with an eleventh inning homer—his second game-winning circuit clout in as many days—to give the Giants a 3 to 2 decision over the Cincinnati Reds.

Only 24 hours earlier he had smashed a home run with two men on base to turn back the Pittsburgh Pirates.

Yesterday's wallop not only stopped Cincinnati and Bucky Walters, but it saved third place in the National League standings for the Giants, who now own a margin of a game and a half over the Reds.

The game was one of a trio of extra-inning affairs in the major leagues' nine-game program for the day and night.

A pair of twilight-night doubleheaders broke precedent in two American League cities and left the Boston Red Sox and Cleveland Indians in a virtual deadlock for second place, eleven and a half games behind the pennant-bound New York Yankees.

At St. Louis, where an unusually large crowd of 20,000 took advantage of the 5:30 starting time, the Red Sox whipped the Browns, 5 to 3, in the twilight opener of their bargain bill but once under the lights, the champions battled eleven innings before Chet Laabs gave the Browns the nod with a two-run homer.

That blow broke up a hurling duel between John Niggeling of the Browns and Joe Dobson of the Red Sox. It was the 19th of the year for Laabs and tied him with Mize of the Giants and Ted Williams of the Red Sox for the major league leadership.

The Tribe scored four runs off Early Wynn in the first two innings of the opener, but the Nats pecked away at Jim Bagby until he had to call on Tom Ferrick to halt a rally in the ninth. The afternoon went 12 frames, with Jim Hogan's single deciding the issue.

Jake Wade registered his second straight triumph since being picked up by the Chicago White Sox, shading Dick Fowler as he pitched a 2 to 1 victory over the Philadelphia Athletics in a night contest.

The only afternoon game in the American League saw the Yankees blank the Detroit Tigers, 3 to 0, on the four-hit pitching of Spud Chandler, who gained his eleventh triumph against two defeats.

Rollie Hemsley went hitless for the first time since he joined the Yankees Sunday and the champions didn't break through against Al Benton until the seventh stanza.

The Brooklyn Dodgers and the St. Louis Cardinals maintained their one-two pace atop the National League with little trouble.

Lombardi Batted .519 on His Last Western Invasion

Boston Brave Catcher Will Appear Here Against Local Recreations on August 6

Big Ernie Lombardi, former Brooklyn and Cincinnati Red catcher, who is now a member of the Boston Braves, came through the last western trip with the National League club holding a spectacular .519 batting average.

Lombardi will appear at the municipal stadium Thursday night, August 6, along with the other members of the Braves when they hook up with the fast-stepping Kingston Recreations in an exhibition contest.

In that jaunt through the hinterlands, big Schorsch whacked 14 blows—two homers, three doubles and nine singles in 27 trips to the plate. Ernie mashed a two-bagger against the Cubs and a pair of singles in five times up on July 9; slapped two singles in four swings on the 10th; and unloaded a brace of doubles and a single in the same number of times at the plate, July 11.

He failed to hit safely on one try in the first game against the Cards, July 12; banged a single in four appearances at the plate in the second game; cracked a homer over the left field wall in Cincinnati, July 15; and after wallowing three singles in a row in the night tilt at Crosley Field, July 16, propelled his second homer of the series and his eighth of the year on his fourth try.

Lombardi has given the Braves plenty of hitting power this year with his big war club. The veteran catcher will see action at the stadium when the National League plays here. Look for big doings at the uptown ball park that night.

Children Seeing World On 85 Cents Are Found

Roxmor Inn, the summer hotel in Woodland Valley which is owned by Mrs. Kathryn B. Hays of this city has been occupied all summer by the Society of Seamen's Children whose headquarters are in Staten Island.

At present there are about 50 children attending. Several days ago four of the boys about 10 years of age decided to go out on their own to see the rest of the world. They pooled their resources and found that they had the sum of 85 cents.

They hiked the two and one-half miles to Phoenixia and after enjoying the hospital care at the village, they discovered that night was about to overtake them and they decided to sleep in the woods. By that time a general alarm was sent out and owing to the efficiency of the state troopers, the wanderers were picked up and glad to be taken back to their comfortable home where the children are given every attention and healthful meals under a trained dietitian.

Since their escapade, the boys have been kept to one room where they are solemnly thinking it over.

Good Taste Today

By Emily Post

(Author of "Etiquette," "The Personality of a House," "The Blue Book of Social Usage," etc.)

MOTHER OF BRIDEGROOM PUZZLED BY SILENCE OF BRIDE'S MOTHER

It is not at all hard to understand the uneasy frame of mind of the mother of the bridegroom, who has never met the family of the bride, nor been to the city where the wedding is to take place, and who, as a last resort, has written me this letter: "My son will be married in less than a month's time but as yet my husband and I have had no word from the bride's mother welcoming us or describing any of the details of the wedding or telling me what she is wearing (in case I would like to be guided accordingly) or saying something about where we are to stay. What shall I do if only the formal invitation is sent to us?"

The obvious answer to this is that you write her and say that although you know how busy she is with the wedding preparations, that there are a few questions that you must ask. Will she please therefore, tell she is going to wear, color, material, and length of skirt, so that your dress will not be out of keeping. Also tell her that you would like to know which hotel she recommends so that you can engage your rooms.

It is probably of course that she has no idea that she has put off writing you and that she will answer promptly. If she doesn't then you will have to ask your son to get the answers to these questions for you.

Limit Receiving Line to Four

Dear Mrs. Post: When a public dinner is given in honor of a well-known official, is it correct to have a receiving line? If so, who stands in it and is it formed before or after the dinner?

Answer: A receiving line naturally "receives" people as they arrive. It is headed by the chairman of the dinner or else by a prominent hostess who is in some way associated with the organization.
